Gioconda[®]

Textile Promotion Products

About us

Gioconda® is specialized in the development, production and distribution of garment bags and covers, nonwoven tote bags, fabric totes, garment collection covers, bridal and evening gown covers, suit bags and much more. All our products can be personalized with your logo and outfitted with all the necessary accessories such as, eyelets, pockets, carrying straps and handles, support hinges, removeable bottom inserts and much more.

We are pleased to advice you!

Your Team from Gioconda

Clap MAXX

Cover picture

Automatic Double closing

Normal umbrellas folds together only in width. The ClapMAXX® removes at the touch of a button additionally in length and returns into its handy starting position.

Strong fibreglass ribs

Durable aluminium frame, 3-sections, Teflon coating and ABS soft-touch handle.

Integrated closing button

To avoid unintentional closing of the umbrella, the closing button is installed inside the handle and can only be triggered after pulling back the handle.

Unique advertising effect

High-quality prints by using modern laser technology makes this umbrella a unique advertising tool.

Program-Highlights

MAXX Reverso

This fancy everyday hero folds together „the other way round“ and attracts attention because of its special design with two different coloured covers. In closed state the wet umbrella cover is within and can stand independently.

page 4

Little MAXX

Double advertising due to the extra-wide and printable closure band, ultra flat like a smartphone, ultra strong by using high-quality materials and nevertheless an ultra light umbrella (160g).

page 11

MAXX City

Looking for a superior price-performance? Choose MAXX City. Super-Handling, super-stable and super-comfortable (automatic). Big appearance (wooden handle) and small price.

page 5

This you should know about the umbrella

The good old things still exist.

The Classic MAXX is the father of all Grand Hotel Concierge umbrellas.

A robust (16cm) wooden shaft, 130cm diameter, ideal for two persons and perfect for all situations when you need a big, classic umbrella—heavy rain and a stretch limo stops in front of a 5***** Hotel, a celebrity walks the red carpet, or the bride needs to get to the church in her wedding dress crossing the street.

What are the unique features?

The Retro MAXX is something special, voted by several fashion magazines to be a „hip“ and stylish accessory. This umbrella is a real eye-catcher, even if it is not raining. The elegant shoulder strap, means it can be easily and elegantly carried when not in use.

This you should know about the umbrella

Practical handling combined with one of the best innovations since umbrellas were invented. The Clap MAXX doesn't only spare packing together wet umbrellas but also time and nerves in bad weather.

What are the unique features?

Normally umbrellas fold only in width automatically. The Clap MAXX is able to return to its small starting position by pushing a button. To prevent the umbrella of folding accidentally the closing button is set into the end of the handle and can only be released after pulling it back.

Certifications & ecological Management

As a partner of the advertising media economy we hold ourselves responsible to the customer, the employees and the environment. Abiding by statutory provisions/laws in Germany and the European Union, as well as the compliance with environmental specifications, are second natural to us.

Our intra-corporate conventions exceed even these: We have willingly accepted the commitment of the Association of the industry of promotional items, whose aim is to follow social and ecologic standards. We thereby commit ourselves to the code of conduct of the German advertising industry.

Our detailed commitment relies on the conventions of the International Labour Organization (ILO) located in Geneva, the declaration of human right of the UNO and the principles for multinational companies of the OECD. We have developed principles for our providers, that they have to commit to.

Our partners frequently comply with a number of further international standards which are meant to ensure responsible actions in a globalized economy.

Competiveness

We offer an ideal service package to our customers: We use our existing know-how concerning textile production, technology – including screen printing – and global sourcing.

Thereby achieving scaled-down prices from which our customers benefit.

In summary: very good service, superior level of quality – even with manufacture of lesser items – and attractive costs. In addition a great stock programme comprising telescopic, regular, shoulder and XXL-umbrellas amongst others. We consistently deliver stock orders, with printing, within a few days, according to your wishes. The scope of supply and services is from complete containers to individual orders delivered by messenger service.

Custom orders

Sollte wir einmal kein ideales Produkt aus unserem Sortiment anbieten können - kein Problem, wir nehmen gern Herausforderungen an: Was wir nicht auf Lager haben, fertigen wir an!

Unsere Mitarbeiter und Entwickler wissen, worauf es ankommt und können Sie fachmännisch beraten.

Hierbei spielt es keine Rolle, um welche Größen, Materialien oder besonderen Einsatzgebiete es sich handelt. Durch unsere hauseigene Produktion ist ein fachübergreifendes Arbeiten möglich, was gerade bei Neuentwicklungen für ein durchdachtes - und im Ergebnis perfekten- Produkt wichtig ist. Kurze Kommunikationswege sorgen für einen reibungslosen Ablauf und dem Austausch von Fachwissen zwischen Produktentwicklung, Design, Einkauf, Vertrieb, Produktion, Druckveredelung und Logistik.

Unsere Stärke: Sinnvolle Produktlösungen, die bis ins Detail geplant sind und alle Anforderungen berücksichtigen, die der Nutzer hat –oder haben könnte.

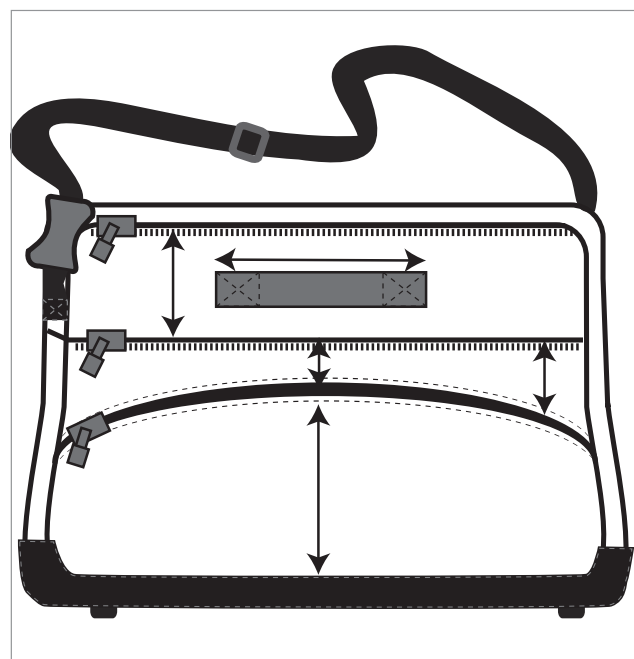

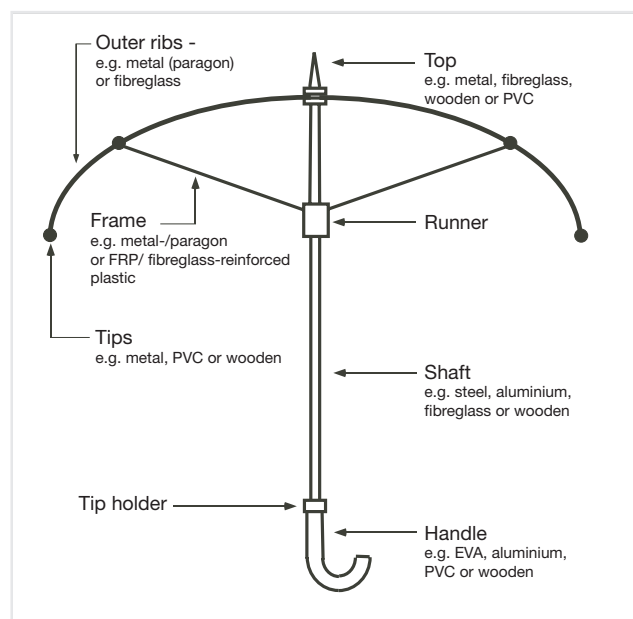

Wenden Sie sich an unsere Mitarbeiter, die Sie gern unverbindlich beraten.

Your reliable Manufacturer and Importer of Textile Promotion Goods

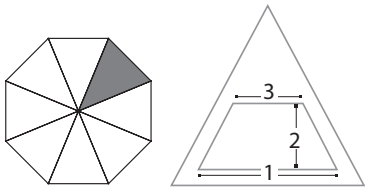

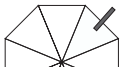

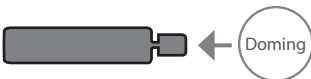

8 convincing arguments

- We also manufacture ourselves: We can do many articles in our own German production site : Tailor made orders – fast orders – small orders-samples

Quality and Know-How – what makes us unique

As an experienced producer we have the inside know-how. Every day we cut, sew and print cloth and other fabrics in our plant in Germany. This knowledge is combined with production of promotional textiles. In addition, contracted providers abroad produce for us, following our specifications.

Our philosophy: Even a plain, low-cost PP-bag has got to be an optical and tactile experience – neatly printed and finished – for something very valuable is at stake – your reputation.

Important Notes

Colours, measurements and weight

The featured colours are without obligation and may differ from the original.

Information on measurements and weight are seen to be circa-statements, deviations may be possible. Declarations on colour by Pantone and HKS are produced according to C (Pantone) and K (HKS). A 100%-analogy with these scales cannot be guaranteed due to appearance and workmanship of the products. Subject to alterations in colour, optics and technology.

Transfer printing on demand. To enable cost proposal management we require the logo in original size for examination in advance.

Optional - at an extra cost we willingly provide you with samples of all our products.

We assume no liability for any errors.
